

Planning a Birthday Party

You are planning a birthday party. Your parents have agreed that you may invite four friends and will give you \$120.00 to buy everything that you need.

Requirements:

- Use the internet, your local supermarket, or grocery store advertisements to research the cost of a birthday dinner for you and four guests at your house. You must include the cost of invitations, food and drinks, decorations, a birthday cake, and anything else you think you will need.
- Create a shopping list to fit your budget. Try to get as close to \$120.00 as possible.
- Show all your work.
- Write a paragraph explaining how you collected the information you needed and the math you used in completing this project.

Think of a creative way to present your project! You can make a poster, a book, use technology, cut and paste pictures from grocery store catalogues or come up with your own ideas.

Project Due Date: _____
