The Hawaii Disability Rights Center is a non-profit organization established by specific laws, such as those laws which authorize Protection & Advocacy for people with disabilities. There were no reportable conditions, findings or questioned costs. HDRC qualified as a low-risk auditee.
FEDERAL REVIEW AT HDRC
The Center on Mental Health Services (CMHS) conducted a 3-day review, (September 20-22, 2005) of the HDRC PAIMI program. The 5-member review team included a federal grants manager; a management consultant; a financial consultant; a legal consultant; and a consumer consultant. The report was issued in the summer of 2006.

EXCERPTS FROM THE “EXECUTIVE SUMMARY” - The Hawaii Disability Rights Center (HDRC) is a superbly organized and administered Protection and Advocacy organization that operates a highly efficient and effective Protection and Advocacy for Individuals with mental illness (PAIMI) Program.

Staff are passionate about their work and their clients and achieve impressive outcomes for a high volume of individuals with mental illness. HDRC regularly meets or exceeds service volume targets and achieves meaningful progress for its client community. It is highly respected in the State social service and consumer communities for its reliability, hard work, and precision.

Similarly, the HDRC Board of Directors and PAIMI Advisory Council are composed of knowledgeable and dedicated members who are passionate about the mission of the agency. Both bodies are well informed about HDRC activities and the needs of the client community and are closely involved in setting HDRC policy and establishing and reviewing program direction and progress.

EXCERPTS FROM THE “SUMMARY & RECOMMENDATIONS” - From the technical aspects of management (its sophisticated database programs and highly defined policies and procedures) to the human impact of its work (its close relationship with the client and service community and the passion that HDRC staff bring to meeting their client’s needs), HDRC delivers.

WORK INCENTIVES PLANNING AND ASSISTANCE (WIPA)
HDRC was awarded a competitive grant from the Social Security Administration to operate their new WIPA program in Hawaii, beginning October 1, 2006. WIPA replaces the Benefits Planning, Assistance and Outreach (BPAO) program which HDRC operated throughout 2006 under a subcontract with DiverseAbilities.

DENTAL ABUSE INVESTIGATION
After receiving an allegation of abusive treatment of individuals with developmental disabilities at a state operated Dental Clinic, HDRC conducted an investigation which included: Visits to the clinic, interviews of the clinic clients and their guardians, and review of 49 individual records. HDRC did not find evidence to substantiate a claim of abuse in the provision of dental services. A report of these findings was prepared and provided to the Department of Health.

ADVANCE DIRECTIVES FOR HEALTH & MENTAL HEALTH CARE
HDRC collaborated with a dedicated group of mental health consumers and the Adult Mental Health Division to create a new consolidated health and mental health Advance Directive which complies with the requirements of both the Advance Medical Directives Act (HRS 327G) and the Uniform Health-Care Decisions Act (HRS 327E-1). The form and instructions are available at www.HawaiiDisabilityRights.org. HDRC provides training on Advance Directives, and assists people with disabilities to prepare their own Advance Directives.
