BLUEMASTER® COMMERCIAL APPLICATIONS

DEF Turn-key Island Friendly Tanks for Commercial Applications

Reliability that comes from a global leader with over 10 years of experience designing and manufacturing DEF storage and dispensing solutions across the world.

The BlueMaster® offers a reliable and robust DEF storage solution to the U.S. market. It's been put to the test in the most demanding of fleet environments, standing the test of time against the most rigorous weather conditions, customer use, and unexpected situations.

This turn-key system is easy to use and offers island-friendly sizing. Save costs with easy installation and servicing.

For commercial applications, TECALEMIT offers the standard BlueMaster DEF storage and dispensing system. These systems house all necessary components to safely and efficiently store and dispense DEF.

Additionally, TECALEMIT offers a variety of upgrade options.

Technical Specifications & Features

Double wall storage tank Fully insulated inner tank		
Thermostatically controlled heating		
Submersible pump DEF flow meter		
Overfill protection Digital level control		
Automatic dispensing nozzle 25' hose		
Equipment housing		
2" Parker Hannifin dry break connection		
8" access lid on inner tank		
2" SS fitting on top of tank		
2" NPT thread for future telemetry		
Control panel for power connection and circuit breakers		
Capacity	1056	gal.
Dimensions (W x D x H)	3'10" x 12'10" x 7'9"	
Weight	1,250	lbs.

Image shown features Wonderbox upgrade option
