## Data is your Crystal ball

Is your organization’s data working for you? Is it an asset readily available and driving your organization’s decision making?

**InnovTech** has strong expertise and proven past performance in designing innovative, secure and high-volume business intelligence and data warehousing applications for companies of various size and type.

We have built BI systems and data warehouses for Centers for Medicare and Medicaid Services (CMS), Social Security Administration (SSA), AARP, Freddie Mac, Fannie Mae, USPS, Pizza Hut, Discovery Communications, etc.

## Clients

**NORTHROP GRUMMAN**

**LOCKHEED MARTIN**

We make home possible™

## Data Solutions

Our clients benefit from the Business Intelligence solutions we provide and are able to scale as their data grows exponentially. This is due to the robust design and delivery solutions implemented by InnovTech.

We know that no one-size-fits-all solution to delivering Business Intelligence in an organization.

*Therefore, we listen intently.* We then develop scalable and cost effective strategies to meet our clients need.

InnovTech brings seasoned industry leaders and expert team players to bring our solutions to the finish line.

## Why InnovTech?

**InnovTech** was founded in 2003 by Business Intelligence and Data Warehousing experts with a vision to implement new and proven Business Intelligence technologies. InnovTech has grown to be a responsive, result-oriented and value-driven IT consulting firm.

Clients spanning Federal agencies, Health, Financial, Pharmaceuticals, Accounting, Mortgage Backed Securities, Insurance, Multimedia, Senior Citizen Organizations, Land and Farming have experienced the value addition that we deliver.
