

Music

Music holds a unique place in the cultural heart of **BSE**. The curriculum is divided into three parts: Performing, Composing and Listening. Each pupil is encouraged to realize their musical potential through enjoyable means of learning.

We provide specialist tuition in a range of instruments, in group and individual settings.

At **BSE** we enable pupils to:

- develop their performance skills on stage, presenting their musical talents and skills
- experience singing in a variety of settings: class, assembly and school productions
- create, perform and respond to a range of musical styles, individually and together in order to experience personal and mutual satisfaction
- appreciate music of different cultures, in order to develop positive attitudes towards other cultures and societies
- realize how time, place and purpose influence the writing of music
