# COVID-19 Experiences and Impact Survey

The COVID-19 pandemic has significantly changed the way we live, how we access medical care, and how care is delivered.

This survey asks questions about your experiences during the pandemic. The Blackfoot Confederacy Tribal Council and the Health Quality Council of Alberta (HQCA) aim to understand what you think about public health measures, health system access, vaccination, as well as the support available to stay informed, well and protected during the pandemic.
