

## V A L L E Y   G R O V E   T R E E   P R O J E C T

---

Maps will be displayed showing tree location and type. This data will also be available on our web site. At present we can only give the general locations of the groves, but once the remainder of the trees are planted, detailed locations will be available. All the groves will be connected with walking paths.

***Tyske Grove*** - east of the cemetery extending eastward to the DNR land. The terrain is high at the cemetery and slopes down towards the east.

***Whitetail Grove*** - from the southeast corner of the cemetery and sloping southeast. At almost any time you can see whitetail deer at the lower edge of this grove.

***Settlers Grove*** - located about 200 yards south of the cemetery. This grove follows a ridge that drops as it goes southeast.

***Gold Finch Grove*** - on the southern edge of the land with a beautiful view of Big Woods State Park. There are several large rocks placed in this grove.

***Ken's Grove*** - on the highest land on the property. Begins at the southwest of the corner of the cemetery and covers most of the hilltop. There is a breathtaking view in all directions.

***Prairie Rose Grove*** - west of the cemetery on a ridge that runs towards Rice County Road 29. This grove and Bluestem Grove are most visible to travelers on Cty Rd 29.

***Bluestem Grove*** - west of Prairie Rose Grove on a smaller ridge that runs in a northwest direction.

The initial cost of a tree, including mulching and watering until the tree is established is \$500.00. We will gladly accept larger donations and put them to good use. Remember that any donation is tax deductible.
