

# *I Can't Stand it*

## **-DESCRIPTION:**

The player, holding the playing rod (not the string) tries to work the ring over a bottle and then attempts to stand the bottle up on the base.

## **-HOW TO SET UP GAME**

The booth needs a low front panel

Set the game units 3 to 6 inches from the front of the booths

You can use up to 3 game units per side of booth

Set the game unit on top of cardboard or some material to prevent the bottles from breaking as they fall to the ground.

Make sure all the string lengths are equal for each game “playing rod”

## **-HOW TO PLAY**

Operator hands playing rod to the player

The player, holding the playing rod (not the string) and tries to work the ring over the bottle and then attempts to stand the bottle up on the base.

The player can not:

- Hold the string
- Hold the ring
- Shorten the string

Player wins when they stand the bottle up on the base unit

The players turn is over when the bottle ether falls off the base unit or when the player wins by standing the bottle up on the base unit.

## **Materials and or Items you need to supply for this game:**

Cardboard or carpet or some sort of material to place under the game unit to prevent the bottle from breaking as it falls to the ground

## **-SUGGESTED PAY OUTS**

The player wins if they stand the bottle on the platform base. Give 10 tickets if they do so
