Welcome to the Journal of CIO and Digital Innovation

Welcome to the second issue of the "Journal of CIO and Digital Innovation".

Founded in 2006, the IAC (International Academy of CIO) is a global academic society with co-founders including Japan, USA, Indonesia, Philippines, Switzerland, and Thailand. Current members and alliances include countries in all regions such as USA, China, India, Indonesia, Thailand, Philippines, Korea, Hong Kong, Kazakhstan, Uzbekistan, Macao, Singapore, Taiwan, Vietnam, Italy, Russia, Czech Republic, and Finland. The IAC is registered as an NPO in Japan.

The IAC's initiatives include developing and publishing the annual IAC – Waseda International e-Government rankings now in their fourteenth year, undertaking a Global eGovernance book series with IOS Press in Amsterdam and volumes including "ICT and Aging Society", and "A Decade of eGovernment Rankings", CIO Accreditation for masters' degree CIO and IT executive leadership programs, annual conference, and research projects and partnerships including with APEC.

The Online Journal of CIO and Digital Innovation is a special journal for CIO, e-government, e-governance, and ICT fields. This journal is published with the vision to improve the efficiency of governments and companies by ICT and e-governance. The mission of this journal is to provide valuable insight for CIOs to facilitate efficiency and to help leaders, especially political leaders to have updated knowledge about world e-governance trends by clear data-driven methods.

Within the mission, the journal covers ICT application to major societal issues such as aging society, Smart Cities, and readiness and emergency response for natural disasters; opportunities, challenges and ramifications of rapidly developing technologies such as robotics, autonomous vehicles and artificial intelligence; and major leadership and eGovernance challenges such as capacity building and cyber-security.

The journal is research to practice oriented and has an audience of readers from academia, government and private sector interested in ICT leadership and innovation.

The journal is published annually with a call for papers in spring and posted on the IAC website at: http://www.academy-cio.org/ as well as circulated to IAC related audiences and through participating organizations.

If you have an interest in submitting an article and contributing to the journal please contact editors Luca Buccoliero at luca.buccoliero@unibocconi.it and Elena Bellio at elena.bellio@unibocconi.it.
