Good News --- Veterans Corner Radio Podcasts

With your help, by the time you read this, we shall have had

over 4000 downloads of the shows now in the podcast library. Each one signifies a veteran or the family of a veteran that is better informed. Here is the link to that library, which now has 34 shows.

<https://www.buzzsprout.com/952243>

We are now at a new level. We will be keeping what we have, but as of now all shows will be aired as shown above but there will be a new dimension.

Even though Veterans Corner Radio is on four radio stations, we know that many are still unable to listen to them at the times aired—some because of work and family schedules, others due to travel or living outside the listening area, like our snowbirds. Finally, many listen to the show but are unable to copy numbers and other information due to traveling or not having something to write on at the time of the broadcast.

We are now making some past shows available in the form of podcasts. They will remain there as an archive of important information that can be tapped at any given time. Furthermore, you can share the broadcasts with those you feel need the information. On your Apple or android devices, just click on a podcast app and then search for Veterans Corner Radio. Be sure to use all three words in your search.

There is more to come, but please search for the podcast and hit [subscribe](#). When you do that we will benefit in two ways, first you will get notifications when new shows are put up and second the more subscriptions the better placement we will have and the more vets we can service.

**Thank You,
Bill Hodges**
