

# Paper Airplane

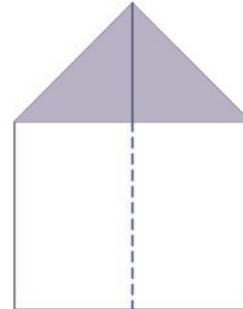

Make your own Disney Junior Paper Airplane!

**Note: This activity is intended to be created by adults only\***  
**Be safe - try not to aim or throw this airplane at anyone**  
**as it could cause an injury\***

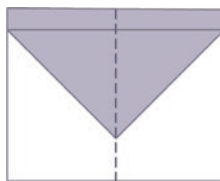

- 1** Fold the rectangle in half, with the white side facing you. Unfold so that the paper is lying flat

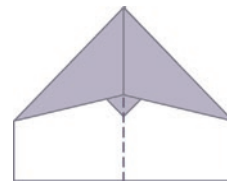

- 2** Fold the top corners towards you

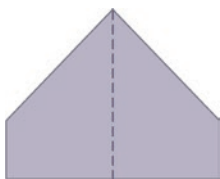

- 3** With the triangle you have created, fold it down towards you so that the point lines up with the centre of the paper, where the fold is

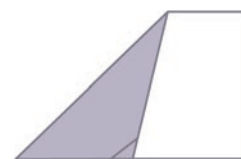

- 4** Fold the top corners towards you again but make sure the points meet in the middle

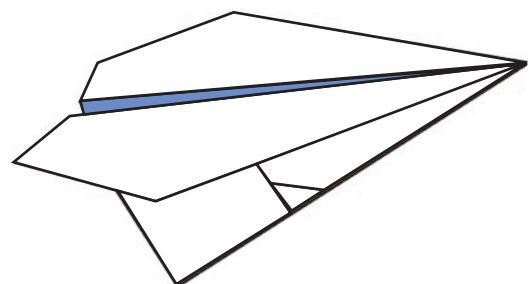

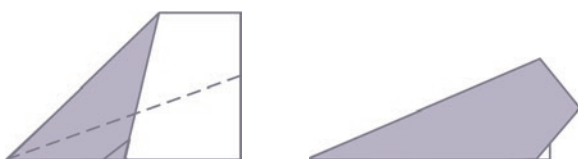

- 5** Fold back the triangle tip that peeks out from behind your new folds, to hold them in place

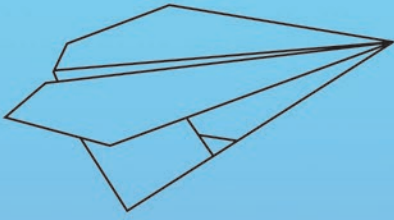

- 6** Turn the airplane over so the design is facing you and fold it in half on the dashed line

- 7** Fold down the wings on both sides
