# About us

DodgeDrinks is a crypto-backed brand of premium functional Soft drinks built for modern lifestyle based on organic and super food ingredients. DodgeDrinks core values are supporting the healthy lifestyle and achieving better health through functional drinks.

DogeDrinks is reflection token and soft drink at the same time. Every buy gives members more with the boost and burn system in place. We want to build a strong community, distribute our drink to be sold and grow our brand in the crypto and real world.

Until now, the ability to invest into the soft drink industry has been limited to a small number of wealthy individuals.

The minimum investment requirement in conventional soft drink company starts at \$1,000,000 but we believe beautiful things in life should be owned by more than just a few rich people.

# Mission

# Charity Aspect

The Doge Drinks community will make a serious contribution, through regular donations, to provide clean drinking water to under privileged. The community will vote and decide to which charities the donations will be made.

# Token Features

## **Boost & Burn**

The goal is to keep the price high by burning tokens that will be purchased by the Boost & Burn every time a sale occurs and that is paid for with DogeDrinks tokens.

## **Liquidity**

The initial liquidity pairs will be locked in with Dx Lock for at least 12 months

## **Anti whale system**

An interesting feature that is used to discourage selling and whaling is that the commission is higher on sales with higher reflections, so holders will be rewarded more. This function also discourages trading bots.

# Tax System

**Buy tax is 12%**  
**Boost & Burn 5%**  
**Marketing 4%**  
**Reflection 3%**

**Sell tax is 18%**  
**Boost & Burn 7%**  
**Marketing 4%**  
**Reflection 7%**
