

ENVIRONMENTALLY-SEALED RELAYS

PROTECT AGAINST THE ELEMENTS WITH T-BAR CONFIDENCE

We offer contact protection against corrosive atmospheres, splashing water, sand, dust and salt spray. This T-Bar style has the identical switching, operations and reliability you will see in Standard T-Bar Switchers because the same quality wafers and actuators are used throughout. The metal enclosures and contacts are protected with a premium epoxy seal as well as backfilled with inert gas for ground support or shipboard applications and in other various hostile environments. 60 circuits are switches in a protected space as small as 2-3/4" x 1-5/8" x 4-1/2". Our products are developed with longevity and practicality in mind. **BONUS!!** Don't forget our terminals are also designed to accept T-Bar Connectors.

SPECIFICATIONS:

- **SEAL TYPE:** Environmental
- **# OF POLES:** 12, 24, 36, 48 and 60 pole configurations.
- **COIL VOLTAGE:** 6, 12, 24, 28, 48 and 110 Volts DC + 115 Volts AC
- **TYPE OF CONTACTS:** 800 Series (5 Amp) or 900 Series (1 Amp)
- **CONTACT FORM:** A, B, C, D
- **SIMPLE CRIMP SNAP-IN CONTACTS** fit into single block connectors for easy wiring.
- **EPOXY-SEALED** metal enclosure.
