

COVID-19 testing onsite for your people

Onsite Medical Hub is available to offer responsive and reliable COVID-19 screening tests and results as part of your organisation's ongoing COVIDSafe plans.

The pandemic has created much uncertainty for Victorians. This impacts people and business. More than ever safety and wellbeing of people comes first. If your team would benefit from knowledge of a clean bill of health, Onsite Medical Hub is experienced in COVID-19 testing and flu vaccination services ranging from 10 to 5000 people onsite.

Security of a COVIDSafe snapshot of your workplace means your staff are back to work reassured, quicker and safer. Onsite Medical Hub gives organisations a unique opportunity to reset health and create peace of mind.

Benefits of onsite COVID-19 screening

- + Assurance for management and staff of zero COVID-19 infections on your site
- + Increased productivity and efficiency that leads to a return on investment for your business
- + Reduced absenteeism and anxiety
- + Increased employee satisfaction
- + Reduced interruption to operations due to quarantining and awaiting results
- + Streamlined testing process and centralised clear and fast results.

MEDICAL
HUB

"The first priority for us is the safety and wellbeing of our 410 employees. This can only be delivered by careful and reliable processes that can be implemented without reducing productivity. We appreciate the speed and responsiveness of Onsite Medical Hub to our health care needs."

Matthew O'Connor | CEO, G&K O'Connor

"We are so grateful to have Onsite Medical Hub carry out the COVID-19 screening on our behalf. It has provided us with a safety net that has proved to be a great success."

Charlie Scudamore | Vice Principal Culture & Community, Geelong Grammar School

Onsite Medical Hub is a preferred health partner

The reasons business leaders choose Onsite Medical Hub include:

- + Experienced practice team of GPs, nurses & administrative staff
- + Centralised referral system offering administration oversight and control
- + Fast test result time frame within 48 hours (may vary with demand)
- + Responsive to the unique needs of clients with customised programs to suit each organisations' individual needs, space and location
- + Dedicated online portal for reporting results direct to your business
- + Long-term partnership with NATA/RPCA accredited laboratory, Australian Clinical Labs
- + Efficient process that honours the demands of the business with minimal disruption to operations
- + Proven systems in managing workflow, social distancing and infection prevention and control.

Program inclusions

- + Competitive pricing per test depending on group size
- + Onsite delivery at your site coordinated by our clinical team
- + Option of offsite delivery through a network of national collection centres
- + Simple online booking and reporting portal with negative certificates as required
- + A convenient CBD location is available should you prefer offsite testing.

Critical information

Onsite Medical Hub will only test patients who are asymptomatic - those who are not displaying symptoms of COVID-19. This is in the interest and safety of all parties involved. Workplaces are advised to encourage anyone showing symptoms to immediately arrange a test via their GP or nearest testing centre. All asymptomatic employees are advised to continue to work while waiting for their COVID-19 results as long as recommended hand-washing and social-distancing guidelines are applied.

Established in health care

Onsite Medical Hub is part of an established and reputable health care group in operation since 2010. Its clinics include Medical Hub @RMIT in Melbourne CBD, Women's Health Hub, Hoppers Lane General Practice, Wyndham Private Medical Centre and Wyndham Clinic Private Hospital.
