

April 2021

Dear BCPS Parents (and Prospective Parents),

We here at BCPS are dedicated to the safety and well being of our students and their families, as well as the community that we serve. That is why, we are happy to announce, that our complete faculty and staff has been fully vaccinated. We are proud to do our part in stopping the spread of Covid-19. In doing so, we can ensure that our students maintain the crucial importance that coming to school on a consistent basis brings to them and their families.

We have seen how children can thrive when they are given the opportunity to learn in an environment that they love and that nurtures them as individuals. Working so closely with young children, both figuratively and literally, has shown us just how difficult and unnatural “social distancing” can truly be. This also has driven our desire to be fully protected against Covid-19.

While we will certainly continue to adhere to the strict safety guidelines that NYS and our school has enforced, we look forward to the warmer weather that spring will (hopefully) bring, having small gatherings safely outside, and the continued success that Bridge Community Play School has had this academic year!
