

EscalatorTread Spot Cleaner

For Professional Use Only

A special blend of cleaning agents, **EscalatorTread Spot Cleaner** is a fast acting spot cleaner safe for use on most escalators. No shock hazard, no flammability hazard, and no water to interfere with proper escalator operation. Designed for best use with **TreadMaster™** escalator cleaning machines.

Directions for use:

NOTE: Shield plastic surfaces from overspray as sudden temperature drop can result in "thermal shock" which may cause crazing of some sensitive plastics. Accumulated vapors from this product may reach ignition conditions in confined spaces.

Always use with adequate ventilation.

For best results, use at top of the escalator while it is operating and with the **TreadMaster™** cleaning machine in place. Spray over surface of spots and discolored areas as required. No further brushing or wiping is needed when used with the **TreadMaster™** System.

Avoid contact with bearings, plastic or rubber.

This solvent is non-conductive so it can be used while motors and equipment are operating.

GHS U.S. - CLASSIFICATION: DANGER

Contains gas under pressure; may explode if heated.
Causes skin irritation. Causes serious eye irritation.
May cause drowsiness or dizziness. Suspected of causing genetic defects. May cause cancer.
