HOIST CONTROLLER

SD-400/WCT-APR

DIRECT CONTROL TWIST LOCK

This 4 channel Rigging Controller is made for Direct Control chain hoists. It features Four TL-4 female panel mount connectors that make efficient cable management possible. Each output has one channel.

This controller comes with automatic phase reverse as a standard feature. When the main supply is connected, there is no need to worry about switching over to the proper lifting direction. It can be used with a SD-DIS 30 disconnect as a main power distribution.

DIMENSIONS ARE IN INCHES

The Standard configuration comes with:
