### Ortho News This Week

## Orthopedic practice opportunity

South Bay area of Los Angeles

Solo orthopedic surgeon (adult reconstructive) looking for a general, spine, or sports orthopedic surgeon to join our practice as an associate in a space and overhead sharing arrangement. The practice is in an ideal location. We are 10 minutes away from each of the two local community hospitals and next door to an ASC where partnerships are available. There are no long commutes for hospital rounds or surgery. We are also one half mile from the beach! If you would like to build your practice without the huge overhead of opening your own office, you can share space and overhead with us. We have a knowledgeable, extremely capable staff and our local physical therapists are top notch. Some of the items that you will have access to are:

- Digital x-ray system
- Established EMR system
- MRI facility in our building
- ASC on our campus only steps away

Call: (310) 372-4646 or email [aareffmd.inc@verizon.net](mailto:aareffmd.inc@verizon.net)

### SPONSOR SPOTLIGHT

## ProcedureCard optimizes the surgical supply chain

ProcedureCard

It has been estimated that there is about \$5 billion of annual waste in high-value medical devices alone. The surgical preference card is one of the key links in the surgical supply chain. Streamlining and updating the cards is not a top priority at most facilities, but it should be. Getting the right tools at the right place and time has never been easier. ProcedureCard.com has created a cloud-based HIPAA compliant

surgical preference card management system that fits easily into the supply chain. It gives the operating room team access to their preference cards 24/7/365. Easily update, create and share surgical preference cards on any connected device. [READ MORE](#)

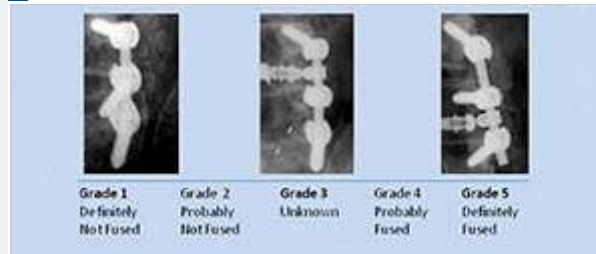

## 6 ways to optimize EHR system performance and usage

Health Data Management

A healthcare organization has gone through the process of selecting an electronic health record system. The process was arduous, but it is done. Now, however, comes a new phase that likely will be more difficult—the leveraging of all of the EHR's capabilities to get the most benefit out of the investment. Jerris Heaton offers six ways to optimize the EHR and usage of the system in an article written for ChartLogic, which offers a suite of ambulatory software for primary care and specialty physician practices. [READ MORE](#)

### PRODUCT SHOWCASE

#### Rare Head-To-Head Comparison of Two Bone Grafts

Two bone graft extenders differing in chemical composition were implanted contralaterally in 2 consecutive patients undergoing instrumented posterolateral lumbar fusion. It was hypothesized differences in biomaterial composition may reveal differences in the rate at which new bone was formed. [Learn more](#)

#### Cerner Ambulatory Practice Management

Specialty Practice Management is a complete front-back-office solution that offers a rapid return on investment and improved satisfaction among your practices. Practices with 10 or fewer providers turn to this comprehensive solution to manage self-pay accounts and eliminate the common mistakes that prevent delay insurance reimbursement. [Read more](#)

## 4 front-end rev cycle revamps you need for a competitive edge

HealthLeaders Media

When it comes to patient satisfaction, providing excellent clinical care is a no-brainer. But in a crowded and competitive healthcare market, smart healthcare leaders know that they need an edge everywhere, including an efficient revenue cycle. [READ MORE](#)

## How AI can transform hospital revenue cycle management — 5 thoughts

Becker's Hospital CFO Report

Artificial intelligence is making big waves across many industries, and healthcare organizations are exploring ways to harness AI's transformative power. Many hospitals and health systems are already leveraging AI to improve care, support clinical decisions and boost clinician satisfaction. However, the role of AI in healthcare isn't limited to the clinical experience. The same technology can transform nonclinical processes. [READ MORE](#)
