COA has developed an agreement with OrthoEvidence to provide COA members with discounted access to the latest orthopaedic research. Leading orthopaedic journals are publishing over 4,000 articles each month. OrthoEvidence, founded by an orthopaedic surgeon, is a large and growing database of Level 1 Advanced Clinical Evidence (ACE) Reports™ that will save you valuable time and keep you up-to-date on the best and most current research in orthopaedics. To see which of the top 200+ journals are covered in their review, [click here](#). OrthoEvidence will also provide a link to the original publication's full text article. If the journal requires a subscription, you will still need to subscribe to the journal in order to access the full article.

What is an ACE Report? Ace Report Video – [Click Here](#).

ACE Reports are compiled in 12 orthopaedic subspecialty areas:

- Arthroplasty
- Foot and Ankle
- General Orthopaedics
- Hand and Wrist
- Metabolic Disorders
- Osteoarthritis
- Pediatric Orthopaedics
- Shoulder and Elbow
- Spine
- Sports Medicine
- Trauma
- Tumor

How can ACE reports be utilized?

- Used to update your professional knowledge on an ongoing basis.
- Attached to utilization review (UR) requests for approval to perform the service. They work. COA members have been successfully using them in the Workers' Compensation system to gain approval of requested medical treatment and surgery in the UR systems.

*"I found OE when I was trying to find Level 1 articles to get surgeries approved through Workers' Compensation. This is it! Efficient, easy to navigate, and very educational on a wide spectrum of articles. Highly recommended."*

*Lesley Anderson, M.D.*

OrthoEvidence is offering COA Members the following options:

- **A complimentary trial account** to MyOrthoEvidence.com. A trial account will allow you to access 2 free ACE reports per month, unlimited synopses, and receive the OrthoEvidence newsletter.
- **Discounted annual subscription rates:**

Access to ACE Reports in # of Orthopaedic Subspecialty Areas	Annual Subscription Rates ***	
	COA Member	Non-COA Member
3	\$150	\$319
4	\$170	\$359
5	\$190	\$379
6	\$210	\$389
7+(reach 7 and get all 12)	\$230	\$395

\*\*\*The annual subscription includes the OrthoEvidence newsletter and access to the entirety of selected specialties plus unlimited synopses across all specialties and 2 ACE report credits (which do not carry over) to unlock 2 ACE reports per month outside of selected specialties. If you are already a subscriber to OrthoEvidence, your access and rates will remain the same.\*\*\*

We encourage you to check out OrthoEvidence.
