

Calvary Church Health & Safety Policy

COVID-19 Safety Precautions
March 12, 2021

In respect to others and in compliance with the Bexar County Official Executive Order NW-20, we recommend that **everyone entering Calvary Church wear a face covering.** The face covering should be worn in the foyer or at any other time that appropriate social distancing cannot be maintained. **Face coverings are available at the information desk.**

We request that you enjoy our online services if you, or anyone in your household, have tested positive or had any symptoms of COVID-19, or been in contact with anyone with COVID-19 symptoms in the last 10-14 days. Additionally, we request that any persons at high-risk take extra precautions while attending in-person services and sit in the designated area on the far left when entering the auditorium. No children are permitted in this area unless they or their family are also in a high-risk group.

We also recommend:

- No handshaking, hugging or other physical contact
- Washing your hands regularly either in the restrooms or with the hand sanitizer located around the building

Thank you for your kind respect and adherence to these requests.
