Dear Parents:

The 1994 session of the General Assembly amended the Code of Virginia to require each division superintendent to prepare and post the proposed average per pupil cost for public education in the division for the coming school year, as well as estimates for the current school year and actual per pupil data for the previous school year.

In compliance with that requirement, I have prepared the chart below using the format prescribed by the state. If you have questions about the chart, you may call my office at 389-0130.
