

Set Up POP - Samsung® Instinct®

If you would like to learn more about the differences between POP and IMAP, please see the help topic, "[POP vs. IMAP](#)."

To set up an Instinct for POP, perform the following steps:

1. On your computer, activate and download your Desktop Connector by signing up at [Sprint's website](#).
2. Once downloaded, start the Desktop Connector.
3. Enter the user name and password that you created during the Desktop Connector signup process.
4. Click the **Next** button.
5. Select the **Enable mobile access to mail, calendar, and contacts** check box.
6. Click the **Please select the messaging application used in your corporation** drop-down menu and select **Standard POP3 Server**.
7. Click the **Next** button.
8. Enter the following information:
 - Display Name—Enter your first and last name. This is the name that will appear in the From field of messages you send.
 - E-mail Address—Enter your entire email address (e.g., myname@mydomain.com).
 - Incoming mail POP3 server—Enter the secure server name:
secure.emailsrvr.com
 - POP3 Port—Select the **Use SSL** check box.
 - Outgoing mail SMTP server— Enter the secure server name:
secure.emailsrvr.com
 - SMTP Port—Select the **Use SSL** check box.
 - Requires Auth—Select the check box.

The screenshot shows a dialog box titled "Desktop Connector" with a close button (X) in the top right corner. The main area contains the following fields and options:

- Display Name ***: Text box containing "My Name".
- E-mail Address ***: Text box containing "myname@mydomain.com".
- Incoming mail POP3 server ***: Text box containing "secure.emailsrvr.com".
- POP3 Port ***: Text box containing "995" and a checked checkbox for "Use SSL".
- Outgoing mail SMTP server ***: Text box containing "secure.emailsrvr.com".
- SMTP Port ***: Text box containing "465" and a checked checkbox for "Use SSL".
- Requires Auth**: A checked checkbox with a dotted border, and an "Auth Settings..." button to its right.
- Outgoing message encoding ***: A dropdown menu currently set to "US-ASCII".

At the bottom of the dialog box, there are four buttons: "< Back", "Next >", "Cancel", and "Help".

9. Click the **Next** button.
10. In the **POP3 User Name** field, enter your entire email address (e.g., myname@mydomain.com).
11. In the **POP3 Password** field, enter the password for your email account.
12. Click the **Next** button.
13. Click the **Finish** button.
14. On your Instinct device, navigate to the **Main** page, and tap the **Email** icon.
15. Tap the **Next** button.
16. Tap the **Work** tab.
17. Tap the **Other** tab.
18. Tap the **Yes** tab.
19. Enter the user name and password that you created during the Desktop Connector signup.
20. Tap the **Next** button.

21. Tap the **Next** button.

22. On the tool tip, tap **OK**.
