\$175 per Session, Participants grouped by age.

Overview

Don't let your kids miss out on a great opportunity to learn the fastest growing sport in the US – PICKLEBALL! Pickleball is a great game for the entire family and we want to teach your children and grandchildren how to play correctly from the start – having fun while developing physical hand-eye coordination skills. Taught by certified pickleball instructors. Space is limited to make sure individual attention is provided for each participant. Fill out the form on the back and turn it in to the PoP desk or email to info@pavilionofpickleball.com choosing the month and the session(s) desired. Clinics run weekly June and July and will be held on the anticipated new outdoor courts! Starts June 7. Balls and paddles are provided. Participants should wear comfortable tennis shoes and shorts and bring a refillable water bottle.

Little Picklers (6-8 years old)

Set up for youngsters new to the game age 6-8 years old. Clinic participants will learn to play the game correctly, understand the rules, execute the basic shots of serve, return, dink, etc and play with others at their level. Sportsmanship will also be taught and encouraged from the outset.

Picklers Drill and Play (9-12 years old)

Big Picklers Drill and Play (13-18 years old)

Set up for youth new to the game or those that have played but want to advance their skills. Camp participants new to the game will learn to play the game correctly and then play recreationally with others in their age group. Those familiar with the game will learn advanced techniques like the third shot drop, the blocking volley, multiple serve types, etc. Each session will be instruction followed by match play with others at their level.
