

Special Order Vegetables

Hello Grower,

Welcome to this growing season. Davey, and staff at Harvest Farm, we will be growing again!

We strive for healthy, stocky plants that will perform well in your fields and ours. We are paying attention to the details that give these transplants a little edge for what faces them. We guarantee the count and the quality of all our plants for growers.

All the transplants are grown in naturally sterile mix or Living Acres organic soil mix. This means there are no soil borne diseases in these plants. The cell concept helps reduce transplant shock by holding the root ball together and providing a reservoir for water. Altogether, your plants will be early maturing and very satisfactory for a great beginning in the spring.

Herbs are on a separate list. Please request.

Flat and cell information:

A flat size is the standard 1020 11" x 22". 162 cells 1 1/8" x 1 1/8" x 1 1/2"; 128 cells 1 1/4" x 1 1/4" x 1 3/4"; 72 cells 1 1/2" x 1 1/2" x 2 1/2" 3" round peat pots for tomatoes are spaced for early plants.

10 Row Seed Flats

The best use for these is for planting into cells, pots or cold frames. 1 to 3 weeks old: 1" to 3" tall depending upon variety and type. Basic prices for cool weather plants – 500 seeds per flat - \$12.00.

Eggplant, pepper, tomato, celery celeriac - \$13.00.

Flowers and Herbs - \$12.00 - \$17.00.

Does not include the cost of the seed.

Prices are for healthy, usable starter plants, grown during our regular season for those size cells, pre-ordered, cash on delivery at Harvest Farm. 1 1/2% interest per month will be charged after 30 days. All prices are subject to change.

Special orders: We will custom grow plants you may need for when you need them, whether or not they are listed here. Other varieties and cell sizes can be made available (for special orders of less than 10 flats of any one special variety, a **\$10.00** surcharge will be added per variety).

Seed Note: We welcome your new, clean, commercially or organic grown quality seed. All seed must be from a reputable seed company and certified to be disease free. An appropriate credit is given when the grower supplies the seed.

Recycling: To keep our costs down and to help our environment, we recycle 90% of the containers in which we grow plants. You may return containers that can be reused.

Shipping and Delivery: Available to many areas for a nominal charge based upon our cost.
