

## NORTHWESTERN RYEGRASS/FINE FESCUE BLEND

A blend of three turf types selected for their ability to thrive in the Western Washington climate. Including three varieties in this blend makes it adaptable to differing maintenance practices, levels of traffic and other site conditions, resulting in the best-looking lawn possible.

Year-round green color

Fine leaf blade

Ideal for cool, damp climates

Netting lends added strength and helps discourage mole activity.

Grows best with 50% or more direct sunlight
