

ELITE TALL FESCUE

Our drought tolerant 100% tall fescue turf requires less water and fertilizer to maintain a beautiful color than other turf varieties. It has a medium leaf blade and year-round green color.

3-way seed blend of varieties approved by Alliance for Low Input Sustainable Turf (a-listturf.org)

Netting lends added strength and helps discourage mole activity.

Ease of mowing; Packs better into rotary mower bags

Grows best with 50% or more direct sunlight
