FULLY OPTIMIZED POST:

We at Frackbar Leadership, Inc. *feel* you.

You're a manager in the tech or videogame industry, and you need every part of your company to function efficiently.... like a well-oiled machine. But there are so many problems threatening to splinter your team into a million pieces.

Like the headaches of remotely overseeing members of your team who are working in every far-flung corner of the globe.

Or younger employees who haven't spent a day in their lives working for traditional companies...and furthermore, don't have the slightest idea what that's like. How do you keep your team together under conditions like these?

It's challenging, but you can do it if you have the right knowledge.

We have that knowledge and want to give it to you. Frackbar is the premier leadership consulting company specializing in the tech and gaming industries. We've been doing this for over two decades, so we know the unique challenges of your company...*inside and out*.

We'll help you to get rid of the factors that demoralize and undermine the smooth functioning of your team.

Your team is like a marching band and your leader is like the drum major who uses his baton to signal in which direction the band should go. Leaders who don't understand the mission won't know how to use their baton and will lead everyone astray...resulting in discord and chaos.

With our training, you'll learn how to unite your team into a powerful whole...with everyone marching confidently in the same direction.

Our solutions will breathe new life into your company by taking boring mission statements and transforming them into living, breathing things...no longer mere words on a page. So many wondrous possibilities swim into view when you use our amazingly powerful techniques.

Then, all the stars align and your company shines...turning it into an unstoppable force! Let us help you blow away all your competitors.
