

FREEDOM FOR RESILIENT WOMEN MEMBERSHIP PROGRAM

DIAMOND MEMBERSHIP

Diamond membership is for individuals who are serious in their intent to make a difference in the lives of single mother students and graduates. They include mothers, fathers, brothers, sisters, neighbors, professors, employers, co-workers, and others who are seriously committed to supporting FRW's mission to increase the graduation rate of single mother students and help single mother student graduates achieve financial independence.

FRW Discussion Forum

Diamond members are encouraged to participate in the FRW's online discussion forum. Both Emerald and Diamond members offer encouragement, advice, and moral support to Sapphire members. Many of our Sapphire members do not have family or friends to cheer them on as they work to overcome obstacles and improve their situation. Emerald and Diamond members often become the primary voices of love and hope in the lives of these resilient women.

FRW Resource Database

Diamond members also have access to the searchable FRW Resource Database. Diamond members are deeply concerned with helping the single mothers in their lives. Access to the resource database gives them the ability to help Sapphire members find local assistance. Many of our listed resources offer a variety of services and assistance and Diamond members are encouraged to also use the database to find help for individuals who are not FRW members.

FRW Live Webinars and Pre-Recorded Lectures

All individual Diamond members have access to FRW live webinars and watch pre-recorded lectures.

Diamond members may also apply to donate their professional talents and skills by hosting a live webinar or recording a lecture in their area of expertise. FRW staff will evaluate the qualifications and proof the webinar or lecture content and extend invitations on a case-by-case

basis. Occasionally, if a membership profile indicates expertise in an area of need, an FRW representative may reach out to Diamond members with an invitation to create a lecture or present at a live webinar. Creating a pre-recorded lecture or presenting at a live webinar is optional and individual Diamond members indicate their willingness to participate in these volunteer activities when they complete their initial member registration.

Mentoring

Many of our individual Diamond members are professionals and experts who generously make themselves available online as mentors. At registration, Diamond members have the option to indicate their area of professional expertise and whether they are willing to accept questions from Sapphire members. Sapphire members can send private messages to Diamond mentors through the FRW platform to ask questions about school, careers, life/work balance, and more. Personal information is kept private and mentors are discouraged from communicating with Sapphire mentees outside of the FRW platform. Volunteer mentors do not provide ongoing support to specific Sapphire members, however, their willingness to generally share their knowledge and experience is greatly appreciated.

Annual Leadership Summit

Individual Diamond members may choose to attend FRW's Annual Leadership Summit.

The Summit is an opportunity for committed individuals and community leaders to gather and discuss the progress, setbacks, challenges, and issues related to FRW's mission. Summit presentations are given by subject experts, business and political leaders, and celebrity influencers.

The 2021 Leadership Summit will be held virtually on Friday, November 12, 2021 from 8:00am to 4:00pm MST. Further information will be made available to Diamond members as it becomes available.
