

- 1 END PANELS** — 5/8" thick (16mm) wood-based composite panel with matching laminate exterior surfaces. Construction holes of 8mm to receive wood dowels of horizontal components and grooved at the rear end to receive the back panel.
- 2 TOP/BOTTOM PANELS** — 5/8" thick (16mm) wood-based composite panel attached to the end panels with wood dowels and glue. Base bottom also rests over the toe kick and rear stretcher for better support. The tops and bottoms are grooved at the rear end to receive back panel.
- 3 HANG RAILS** — 5/8" thick (16mm) wood-based composite panel. Hang rails are set underneath the top panel and above the bottom panel, always concealed behind the back panel. Our hang rails utilize wood dowel and glue construction. Cabinets 30" or wider feature a pocket screw at the center across the top and bottom for better strength.
- 4 BACK PANEL** — 3mm hardboard laminated on one side in white, or matching laminate exterior surface. Fully captured and stapled to end panels, bottom and top or upper stretcher for bases.
- 5 SHELVES** — Wall cabinet features full depth adjustable shelves with symmetrical shelves drilling patterns. The Base cabinet features a half depth shelf with a frontal lock-in-place shelf clip. **Standard:** 3/4" thick (19mm) wood-based composite panel with white laminate on both surfaces and matching edgeband on the facing edge.
Full Depth Shelf (FDS) Upgrade Option: available on select base cabinets.
- 6 TOE KICK** — **Standard:** 5/8" thick (16mm) unfinished wood-based composite panel. Toe kick is 4" high.
No Toe Kick (NTK) Upgrade Option: available on select vanity cabinets
- 7 BASE STRETCHERS** — 5/8" thick (16mm) unfinished wood-based composite panel strips 3-3/4" width, running from left to right on the front and rear end at the top of the base cabinet. Frontal stretcher features matching exterior edgebanding on the facing side.
- 8 DRAWER BOX** — **Standard:** Metal drawer box with 5/8" thick particleboard drawer bottom and back with white epoxy coated partial roller wheel extension drawer guide. **Upgrade Option:** Soft-close attachment for metal drawer box.

Upgrade Particleboard Drawer Box Option: Five piece 5/8" thick particle-board sides and ends, 1/8" captured drawer bottom. Drawer parts laminated white. Partial extension 100lb drawer guide is standard with this option. **Upgrade Option:** Full extension, under mount drawer guide with integrated soft-close for particleboard drawer box.
- 9 HINGE** — **Standard:** 6-way adjustable concealed clip on hinges with 107 degree opening.
Upgrade Option: Soft-close feature.
- 10 DOORS** — Please refer to individual door style specifications

ALTERED DEPTH (AD) OPTION — Select wall cabinets can be increased to a 15" or 18" depth. Select base cabinets can be decreased to a 15", 18" or 21" depth. AD availability is noted by cabinet.
