

FOR HEALTHY VISION

A MESSAGE FROM CONEXUS CEO, TIM GRESHAM

Conexus was created to serve.

Our mission, to eliminate poor vision as a barrier to children's success in school and in life, is even more important today than ever before.

We continue to work closely with school divisions and other stakeholders planning our services for opening days – and beyond. As you know, there is a lot up in the air, but we know we will be serving kids, one-on-one!

Our Conexus Pediatric Advisory Council leadership provides us with appropriate guidance as we serve to be sure we are safely meeting recommendations of the American Academy of Ophthalmology, American Optometric Association and American Opticians Association.

Poor vision is a major contributor to equity issues in both education and health. How, when and where we serve may be altered for a while, but we will serve. Our work is making such a difference in the lives of kids and we cannot do it without your support and friendship.

Thank you for your continued partnership and support!

A handwritten signature in black ink that reads "Tim Gresham".
