

The effectiveness of your COVID-19 response is in the integrity of your systems.

WRMA empowers our clients with innovative solutions to create better futures for vulnerable populations. For 40 years, WRMA has partnered with clients, providing them management, data analysis, technical assistance, and experts to develop and implement programs.

WHEN CHALLENGES ARISE, WE HAVE SOLUTIONS.

We detect, prevent, and predict fraud, waste, and abuse.

- Quick implementation of prevention and detection tools and effective recovery strategies
- Investigation techniques that can be used across programs
- Front-end improper payment detection to reduce “pay and chase”
- Expertise in monitoring to ensure compliance

We provide risk assessment strategies to assure fiscal accountability.

- Experience developing risk assessments tools and guidance (toolkits, risk assessment worksheets, self-assessment instruments)
- Accelerated business process reviews aid speed of policy and procedure changes preventing improper payments
- Ensuring recipients continue to have access while policy/procedure changes are underway

We reduce error rates and improper payments.

- Tools for documenting case reviews and reporting results
- Support to ensure that Improper Payments Elimination and Recover Act (IPERA) requirements continue to be met
- Identifying root causes of errors
- Benefit recovery of improper payments
