

West Virginia Conference Agenda:

Caring for Pregnant + Parenting Women with Opioid Use Disorder and Their Infants

September 6-7, 2018

Embassy Suites Hotel – Charleston, West Virginia

Objectives:

- Bring West Virginia’s key people and resources together to define an approach moving forward around best practices for treating pregnant women with OUDs and their infants.
- Identify solutions that will work in West Virginia and develop actionable strategies for implementing these solutions.
- Define the role of each entity in implementing identified solutions.

Target Audience:

- Maternity, obstetric, pediatric, and family practice providers - including physicians, PAs, APNs, nurses, medical assistants; home visiting program staff; local health departments
- Social workers; child protective service workers; and other social service providers
- Behavioral health providers; peer recovery support specialists; opioid treatment providers
- Court and criminal justice personnel, including judges, attorneys and probation officers
- Funders, including Medicaid, managed care organizations, and foundations
