GROWING YOUR BEST SELF

A Virtual and Physical Journey of Nature-Based Personal & Leadership Development
September 20 - December 6, 2020 Six 90 minute, virtual gatherings & solo activities

2020 has altered our lives in dramatic ways. With less external activity and greater global upheaval, you may feel a sense of reordered priorities, hints of harder questions and experiencing new sensations. While we have little control of the external realities, we can bring intention to the adaptation of our personal and professional lives and emerge from this cocoon wiser and more resilient.

Join us in the virtual [Generative Council](#) and experience the power of Nature to guide your life and leadership from the comfort of your home and local land.

This 6-week virtual gathering is for women of all ages and walks of life committed to bringing about a better world. Using inner and outer Nature as our first and best teacher, It will guide you through reflection and planning to connect head, heart and action. You will gain fresh perspectives and deeper insights to propel you towards greater wholeness and embodied leadership. The [Center for Nature & Leadership](#) and the [Generative Council](#) have enriched and emboldened many talented, thoughtful women leaders through this transformative experience and welcomes you to join our next journey!

During our time together, you'll:

- Learn personal and nature-based practices designed to enhance your presence and effectiveness;
- Reflect on your life, work and aspirations to shape a richer personal and professional life;
- Join a community of like-minded women leaders who provide support, perspective and mentorship;
- Be inspired and motivated to bring your best self to what matters most in your life.
