

THE GENERATIVE COUNCIL

Center for Nature & Leadership 2020 Giving Tree

Give what you can, take what you need!

Hello, Lovely Generative Council Community! As has become an annual tradition, here is the 2020 Generative Council Giving Tree.

The purpose of the Giving Tree is actually our byline -- give what you can, and take what you need. With the mission to inspire women with nature's wisdom, to catalyze generative leadership, and nurture personal wholeness.

Eight years ago the seed of GC was rooted, we are all part of its history, as the interconnected root network took hold.

In 2020 the Generative Council ignited a transformative journey, sparked from a visioning retreat. Time for our beloved center to grow more branches and blossoms, becoming the Generative Council Collective (GCC). Our vibrant emergence supports expanded impact in the communities we hold dear and on the planet. Honoring our values and principles...the essence of GC.

Your talents that give light to your passions will help us this upcoming year as we build out our fundraising and infrastructure. Please seriously consider investing in our organization and yourself in the following ways:

2021 CNL Giving Tree Priority Opportunities

1. **Virtual program technology angels** - minimum 2 individuals. For their service, they are free to attend a future virtual GC program.
2. **Virtual program guide apprentices** - For those of you interested in exploring a paid guide apprentice opportunity in 2021 please let us know.
3. **GC Collective topic tenders** - Looking for women to take responsibility on the GC Collective for one of the 'interest topics'. This would include posting a new article/feature at minimum weekly, and nurturing ongoing discussion. Perhaps you'd like to partner with others on a specific topic. Curious to learn more?

And we welcome all other contributions that inspire you! Your giving can take the shape of your time, talents and/or treasure.

Thank you to the amazing women, you know who you are, who contributed their time and leadership this past year with the Diversity Book Club, Monthly Member Topics, Grow You Best Self Programs, and other offerings! We also welcomed 33 new inspiring women to GC and our network now spans 3 continents and 24 states.
