

COVID19 protection policy as of 2021

I agree to a daily health check of my child(ren) before bringing them to Discovery Playhouse.

Key Symptoms of Illness:

- *Fever (over 38 degrees C)
- Chills
- Cough or worsening of chronic cough
- Shortness of breath
- Loss of sense of smell or taste
- Diarrhea
- Nausea and vomiting
- Unexplained rash
- Or any other COVID-19 related symptoms

If you answered “YES” to **one** of the symptoms included under “Key Symptoms of Illness” (excluding fever), your child must stay home for 24 hours from when the symptoms started. If the symptom improves, your child may return to Discovery Playhouse when your child feels well enough. If the symptom persists or worsens, seek a health assessment.

If you answered “YES” to **two or more** of the questions including under “Key Symptoms of Illness” or ***you have a fever**, seek a health assessment.

A health assessment includes calling 8-1-1 or speaking with a health practitioner. If a health assessment is required, your child must not return to Discovery until COVID 19 has been excluded and your child’s symptoms have improved.

If your child or anyone in direct contact with your attending child tests positive for COVID, you agree to inform Fraser Health of your contact with Discovery Playhouse so that Fraser Health can determine if Discovery Playhouse is at risk of exposure.

When a COVID-19 test is recommended by the health assessment:

If the COVID-19 test is **positive**, your child must stay home until you are told by public health to end self-isolation. In most cases this is 10 days after the onset of symptoms. Public health will contact everyone with a positive test.

If the COVID-19 test is **negative**, your child can return to Discovery Playhouse once symptoms have improved and they feel well enough. Symptoms of common respiratory illnesses can persist for a week or more. Re-testing is not needed unless you develop a new symptom.

Discovery Playhouse

Children's Society

If a COVID-19 test is **recommended but is not done** because you choose not to have the test, or you do not seek a health assessment when recommended, and your child's symptoms are not related to a previously diagnosed health condition, your child must stay home from Discovery Playhouse at a minimum of 10 days after the onset of symptoms, and they may return once your child is feeling well enough. If a COVID-19 test is not recommended by the health assessment, your child can return to Discovery Playhouse when symptoms improve, and your child feels well enough.

International Travel – have you returned from travel outside Canada in the last 14 days?

If YES, 14-day quarantine is in effect and therefore can not return to Discovery Playhouse until quarantine ends.

Confirmed Contact – have you, or your child, been in contact with a person confirmed to have COVID – 19?

If YES, Fraser Health should be notified of your connection and attendance leading up to the exposure so that they may determine if Discovery Playhouse has been exposed. Do not return to Discovery Playhouse until Fraser Health has notified you of your health clearance.
