

POWERROLL

G SERIES

SMARTER. SMALLER. STRONGER.

PowerHandling's battery-operated *PowerRoll G-Series* is a compact and incredibly powerful tool that allows a single operator to safely, quickly and easily move large rolls up to **100k lbs.**

Adjustable Handle

Telescoping handle adjusting up to 470 mm/18.5", accommodating the height of operators.

Customized Options

- **Swivel-&-Pivot Handle**
Swivels left/right and forward/back (to push and pull).
- **Swivel Handle**
Swivels left/right, helping separate reels.
- **Center Straight Handle**
Fixed – Easiest to maneuver.
- **Center Handle Pusher Bracket**
For rolling and pushing loads (cart or trolley).

Comfort Grip

User designed grip with forward/reverse and smooth trigger, engineered for easy operation.

High Capacity Battery Packs

Our high capacity battery packs provide exceptional torque with long run times – generally in excess of an 8 hr. shift.

Quick Change Batteries

The "quick change" encased packs can be switched in less than 5 seconds. No wires or plugs to connect.

Battery in Base Design

The battery pack is placed in the base resulting in a lighter handle assembly and easier machine maneuverability.

Heavy Duty Chassis

Patented "Solid Drive" © all-welded, fully boxed chassis, high torque motor & nested gearbox within stacked cylinders of heavy wall tubing.

Robust Gearbox

Triple planetary gearbox with 3 ratios to match speed and torque capabilities of your RGB to your application.

SMARTER. SMALLER. STRONGER.
