

LGO Markets is a digital asset trading platform dedicated to institutional clients. We are providing our users with a fully regulated, secure and transparent platform to access digital assets.

THE PROBLEM

Current digital asset exchanges are not established to meet institutional regulatory standards.

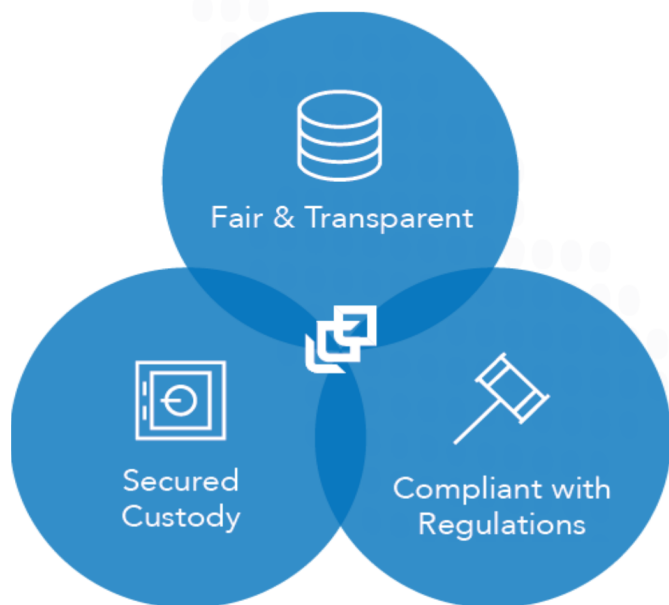

Current digital asset exchanges conduct all of the traditionally segregated duties of the trade process under one operational umbrella:

- > Custody of client assets in commingled accounts
- > Perform customer trade execution while making markets and running proprietary trading operations
- > Act as a clearing firm with settlement duties
- > Non-transparent pricing and volumes

X REGULATORY ISSUES X CONFLICTS OF INTEREST X MAJOR COUNTERPARTY RISK

THE LGO MARKETS SOLUTION

A regulated, secure and transparent digital asset trading platform designed to meet institutional investors' needs.

COMPLIANT WITH REGULATIONS

- > Applying to a Broker Dealer/ATS license with FINRA and the SEC
- > Applying for a New York DFS Bitlicense
- > Regulatory oversight in Europe and Switzerland

SECURED CUSTODY

- > We are **non-custodial** and are working with banks and third-party custodians which are holding our clients' funds
- > Clearing and settlement of trades is made through regulated or supervised clearing firms

FAIR & TRANSPARENT

- > **Centralized** order book for quick trade execution
- > Orders and transactions time-stamped on the **blockchain**
 - > Creates **auditable** transaction record
 - > **Transparent** pricing and volume
- > We do not trade or make markets on the platform

CORE TEAM

FREDERIC MONTAGNON CHAIRMAN & CO-FOUNDER	HUGO RENAUDIN CEO & CO-FOUNDER	NICHOLAS PASSARELLI CHIEF COMPLIANCE OFFICER	ANTOINE REMY CHIEF FINANCIAL OFFICER
