

BEACH ACCESS WAYS UPDATE

By: Robbie Borum

Bass Lane completion is set for July 4th weekend. Workers are in the process of installing the drop-off area, curbs and sidewalks at the street.

Phase 8 - 2017 / 2018

To date, I have had five requests for beach access ways for people who have mobility issues maneuvering the sand dunes at the beach access.

The City informed me several months ago that they would try to plan for three access ways. Since that time, I have had five requests. I have now asked the City to consider completing all five for Phase 8. I am waiting for a response.

Thank you to everyone who contacted me with suggestions.

Robbie
