Meet Yolanda

FROM THE PHILLIPINES

Yolanda is hard-working 58 year-old woman from Cavite, Philippines. This is Yolanda's second loan with Kiva. She previously accessed a 20,000 PHP (Philippine peso) loan she used to purchase hogs and feed needed in her business. Her earnings were a big help for the education of her children and in their personal, house hold, and business expenditures. She also has a variety store for additional income.

She would like to apply for another 19,000 PHP loan for her to buy additional hogs and feed needed for her business. Her profits from the business will definitely help her to sustain her daily needs and educational expenses of her children. She looks forward to this financial increase with much gratitude.

This month, Cascade Investment Advisors decided to focus its charitable lending efforts to a budding entrepreneur in Philippines...

Recovering from an economic lull at the turn of the century, The Philippines currently ranks as one of the most promising newly-industrialized countries in the world. We hope that by lending to citizens like Yolanda in The Philippines, we help the country continue its economic progress!

Please join Cascade Investment Advisors in assisting needy entrepreneurs around the world by joining our Kiva team "The Microlending Fund" at Kiva.org and engaging yourself in the fight against poverty.
