

This month, we're focusing our charitable lending efforts on a university student from Georgia

NINO'S STORY

Nino is a 19-year-old student living with her mother and sister in Tbilisi, Georgia. She is a dedicated student, and hopes to continue her degree in Psychology. For this reason, she is requesting a loan of \$1,000 USD to cover her 2nd year tuition fees. Her ultimate goal is to complete her bachelor's program and find a stable, salaried job as a psychologist.

She really appreciates support from the lenders' as her life will greatly improve with their help.

GIVING A HELPING HAND

Our goal in lending through [kiva.org](https://www.kiva.org) is to assist individual borrowers to start and grow businesses and build brighter futures for themselves, their families and their communities. We're particularly interested in this loan because it supports low-income students like Nino to pursue education and find jobs before repaying.

By supporting this loan, we're contributing to a groundbreaking loan that empowers Nino to secure a better future. Will you join us in microlending this month? Together, we can make a difference!
