## WHY CHOOSE LANDA'S PD

The PD is Landa's professional direct-drive, cold water pressure washer line offering models and cleaning power of up to 3500 PSI.

**QUALITY:** Only high quality components are used on the PD, including most models carrying the tri-plunger high-pressure Landa pump with 7-year warranty, industrial-duty Honda engines, durable welded steel frame, and side-grip wand for cleaning effectiveness. The PD is certified to the rigid UL-1776 safety standards and has a 24-inch hose guard for burst protection and pictogram operating instructions for owner liability assurance.

**CONVENIENCE:** A number of features make the PD especially popular with users who seek to reduce their cleaning time. For instance, there are handles on both front and back for easy vehicle loading. The pneumatic tires make for easy maneuvering in any terrain and the shock-absorbing rubber feet keep the PD from "walking" while in operation. The E-Z start valve (on model with 389cc engine) allows for resistance-free pull-starting of the engine.
