

VTS-DI Pre-Application

Recommended Programs and Facilities

Applicants are highly recommended to train in higher level diagnostic imaging modalities under the auspices of a Diplomate of the American College of Veterinary Radiology (ACVR) and/or a Diplomate of the European College of Veterinary Diagnostic Imaging (ECVDI).

Senior third year ACVR/ECVDI residents will also be acceptable for training of diagnostic imaging veterinary technicians. If a boarded radiologist is not available at the Applicants facility a Boarded Specialist in Internal Medicine, Neurology, Oncology, Surgery or Emergency Critical Care (that performs higher level imaging modalities) will be acceptable substitutes for training.

VTS-DI members (when available) will be authorized to sign skills sheets but if not available a member of another NAVTA approved VTS academy from Internal Medicine, Neurology, Oncology, Surgery or Emergency Critical Care (that perform higher level imaging modalities) will be acceptable until VTS-DI members are more numerous.

The following are current continuing education programs, academic facilities or referral practices directed by ACVR diplomats which would be appropriate facilities and programs to assist with advanced imaging training leading to specialty recognition for veterinary technician candidates.

**Please note there are no internships or externships available at this time for AVTDI applicants. All applicants interested in training at these facilities must meet all criteria to be employed by these facilities.*

Academic Programs:

***Cornell University, College of Veterinary Medicine
602 Tower Road
Ithaca, NY 14853***

***Cummings Veterinary Medical Center at Tufts University
200 Westboro Road
North Grafton, MA 01536***

***Kansas State University, College of Veterinary Medicine
Manhattan, KS 66506***

***Louisiana State University, School of Veterinary Medicine
Baton Rouge, LA 70803-8402***

Academic Programs:

Mississippi State University, College of Veterinary Medicine
Mississippi State, MS 39762

North Carolina State University, NC State Veterinary Hospital

Recommended Online Programs:

CT

VETCT for in house training

US

Academy of Imaging (Soundvet)

Small Animal ultrasound imaging

NAVC Institute

Training and techniques in small animal ultrasound

WAVE

Training and techniques in small animal ultrasound

Nuclear Medicine

Nuclear Medicine Short Course at Virginia Tech

A general review of nuclear medicine, including reviews of the basic principles of nuclear medicine and image processing, common nuclear medicine imaging procedures

GE continuing education

MRI

MRI Courses through Altuslearn

Veterinary Based MRI Training and CE

Esaote sponsored seminar, MRI in Veterinary Medicine - US

Esaote sponsored seminar, MRI in Veterinary Medicine - Europe

Generally takes place every 2 years, alternating Europe and United States

Veterinary MRI Training Course with John Posh

AAVR Veterinary MRI Training Course

Visco Veterinary MRI Training Course

ACVIM

Brain Camp: MRI Course
