

# Operation Odin

In one of Hampshire Constabulary's largest-ever drugs cases, analysts used Chorus to help secure over 100 years of jail time for eight criminal gang members.

- 12 months to prepare evidence because of the quantity of data
- 35 days of surveillance
- 65 phone numbers (140 files)
- 100 phones seized, extracted and loaded

## Arrests

**Chorus** delivered in 20% of the time normally taken (saving 80% of analyst hours)

- 19 defence barristers could not discredit Chorus reports

## Trial

- Chorus - speed**
- Made court preparation faster
  - Enabled more accurate attribution
  - CPS didn't need a forensic cellsite analysis
  - A bespoke report was created for CPS in 48 hours

## High volume analysis

- 370,000 lines of phone data
- 23 targets
- 13-14 progressed to court
- 35 court schedules

## Result

- 100 years of jail time
- Link opened to another North Hampshire OCG
- Link opened to an OCG in Wiltshire
- 'Mr Big' is still out there
