

Chorus Investigator

Immediate Insights

A dashboard for Investigators to instantly see the who, what, where, and when of a case at the push of a button.

Chorus Investigator is designed to help Investigators review the information available to them at a high level to help answer key questions and develop lines of enquiry, *fast*. We understand that time is critical in the early stages of an investigation, so Chorus Investigator is the latest addition to our industry leading data cleansing and analytics portfolio to help law enforcement in their fight against crime.

The dashboard interface includes a central map, a data table, and a matrix view. The data table below shows a list of events with columns for Date/Time, Location, Event Description, Event Record Type, Comment, Target Event Identifier, and various status indicators.

Showing All Events	Date/Time	Location	Event Description	Event Record Type	Comment	Target Event Identifier	Is Entity (Checked)	Is Entity (Original)	Is Entity (Last 90)	Is Entity (Last 30)	Is Entity (Last 7)	Is Entity (Last 1)	Is Entity (Last 1)	Is Entity (Last 1)	Is Entity (Last 1)	Is Entity (Last 1)	Is Entity (Last 1)
00:00:00	2015-01-01 00:00:00	123 Main St	Vehicle Collision	Accident	Two cars involved	1234567890	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

The dashboard is built around our integrated mapping functionality and matrix reports for immediate insights.

Who, What, Where, and When

Filters

Filters enable you to quickly select the data you want to see before visualising. Filter by:

- > **Date and time**
- > **Individuals**
- > **Phone numbers**
- > **Locations**

Reports

Once the parameters have been set, a number of easy to read reports will display on the dashboard identifying:

- > **Top locations**
- > **Most popular contacts**
- > **Call frequency**
- > **Activity of individuals**

Mapping

Instantly see what happened around the time of an offence using the integrated mapping.

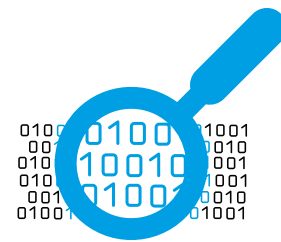

- > **Area filter**
- > **Colour coding**
- > **Editable labels**
- > **Snapshot exports**

Investigator map exports can be used evidentially.

Immediate Answers

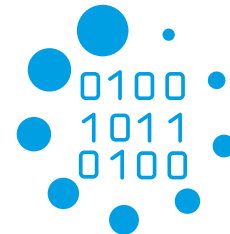

What happened around this date?
Who were they communicating with? Where did they go?

With Chorus Investigator, maps and automated reports display answers at the push of a button. Pre-define reports and filter results to visualise exactly what you need.

Full Digital Disclosure

Chorus Investigator has the ability to ingest and search all of the data involved in your investigation and also provide you with a report that allows you to see entities in order, who they are attributed to and where that attribution came from. All at the click of a button.

Chorus Investigator Benefits

- **Cleansed Data** - Chorus Investigator cleanses your data using rules based automation meaning that reports can be used evidentially.
- **Ease of Use** - An intuitive interface and drag and drop functionality means data is easy to load and analyse.
- **Time Saving** - We have seen time saving up to 97% in the formatting and analysis of data to get answers. Crucial in a lot of cases.
- **Lines of Enquiry** - Connections can be highlighted and lines of enquiry opened that manual analysis wouldn't uncover.
