

## Words from Our Director

I know that the income (of kind patrons) has been earned through the sweat of hard work in a fog of worry, each step hard to take and each load heavy to lift. I am deeply moved when I think of the hard physical and mental work that earned them that income. I'm like a beggar for alms who is happy to receive anything he's given. It's my responsibility to use whatever I receive for offerings and charity.

There are now over seven hundred monks, nuns, and yogins at the monastery; three hundred pupils in the school; and over three hundred elderly people who need to be cared for. I have to take care of them all materially as well as spiritually. With each year..., the number of pupils in the school is increasing. Also there are many lay people who are connected by their faith to the monastery. I have to personally take care of the organization, education, and welfare of the monastery and those connected with it. It is my first priority is to see that a donation is used as it should be and is not lost or wasted.

You who have been kind to me, have given donations and made offerings are people who have the light of goodness in your heart, and the radiance of kindness in your minds. I make sure that the impoverished people of my homeland know this about you, know the value of your gift, see it, receive it, and are benefited by it.

Here amongst this high land's cold winds and snow, the first warmth our bodies and mind experienced came from our parents. Your kindness is a similar warmth that we will always cherish in our hearts. Your smiling faces and gentle hearts are reflected on the surface of each wave on the clear water of our minds.

## There are many ways to give:

### Charitable Bequests

Simply put, this is a provision in either your will or your living trust which provides that all or a portion of your estate is to pass to a charitable organization. You may stipulate a specific amount, a percentage of your estate or a specific asset.

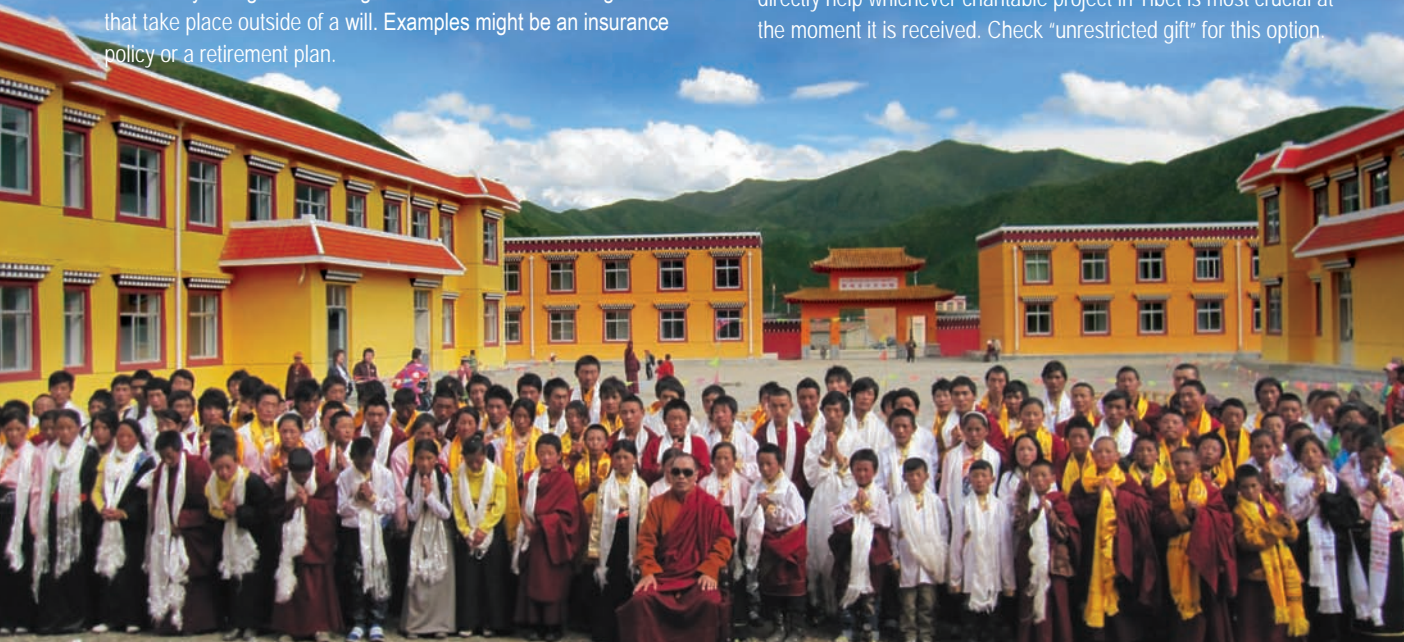

### Beneficiary Designations

Beneficiary Designations are gifts made to a charitable organization that take place outside of a will. Examples might be an insurance policy or a retirement plan.

## Designate the use of your funds:

You may choose which area you wish to support such as a Mayul School Endowment to help support our student's education as our numbers double from 300 to 600 students; or provide help provide a decent standard of healthcare for thousands each year for generations to come through – choose our Rural Healthcare Initiative.

Or you may simply donate to a discretionary fund which will directly help whichever charitable project in Tibet is most crucial at the moment it is received. Check "unrestricted gift" for this option.

With your help thousands yearly will receive care not otherwise available. Through education comes the opportunity to prosper and through prosperity a great culture can remain alive. Because of your kindness, the birthplace of Tibetan Buddhism will have a chance to grow and thrive.

**The Blue Valley Foundation** is committed to supporting innovative programs which help bring the people of Tibet successfully into the 21st Century while remaining respectful of the ancient cultural traditions. We deeply appreciate your support.

Blue Valley is a non-profit charitable organization under 501 (C) 3 of the Internal Revenue Code. All contributions are fully tax deductible.
