### **The Business**

Koolatrons Directors and staff have many successful years behind them in the commercial service industry. Having researched the mineral water and dispenser needs in South Africa, it was evident that managed facilities for healthy hydration would be required extensively and would grow strongly from the year 2000. Our S.A.B.S approved quality natural mineral water along with quality products and well-trained staff enables us to offer best health – taste – service and value to our clients.

### **Mission Statement**

“To be the ongoing supplier of choice of quality water and products through reliable, attentive and responsive service at best value to our clients”.

### **Infrastructure**

Koolatron has built up the infrastructure to administrate hydration facilities and supply their products from a central point, making all areas in Gauteng easily accessible with efficiency and prompt responsive service. Covering quality products, storage, distribution, installation, maintenance, sanitation and the ability to handle the various requirements and needs of Companies large and small.

### **Philosophy / Black Empowerment**

Koolatron applies itself to maintain an organized, trained and friendly team, in-house and out, with a full spectrum of staff members. Management and skills training is also built into our daily routine and has successfully enabled substantial **upliftment and black empowerment**.

### **Koolatron (Pty) Ltd “Empowered”**

Koolatron has reached a Procurement recognition level of 110%. Providing a board based BEE status level 3 as a value adding supplier. Please note we have a black shareholder since 2006. His share is a true upliftment and empowerment through working for our company. Please see BBBEE Certificate attached.

### **Future**

We look forward to building and maintaining our business’s with enthusiasm and being part of the business community helping develop South Africa’s prosperity and harmony for all.

Yours sincerely

Glenn Curtis  
Managing Director
