The YETI TANK™ is armored to hold the cold like no other ice bucket. Translation: your next backyard bash, fish fry, tailgate celebration, awkward family get-together or outdoor soiree will stay wilder, longer. Our patented insulation will keep everything frosty as long as you need to get the job done, while the nearly bombproof rotomolded design and military-grade nylon handles let you carry it into action over and over, wherever ice-cold beverages and merriment are needed.

Take your party to the next level with the YETI TANK Lids. These hardworking lids will work triple-duty at your next to-do, locking in the cold, adding a seat to the circle, and offering a great cutting surface. We'd suggest not using those last two features at the same time.
