

The Order in which to Read S. Connolly's Books

These are the foundational beginner books to be read in this order:

1. **The Complete Book of Demonolatry**
2. **Daemonolater's Guide to Daemonic Magick**

Next you would move into specific areas based on interest. If the first two books are the 101, the following are still beginner, but address more specific topics. Let's call them 201. There is no specific order for these unless stated:

- **Honoring Death** – Necromancy
- a. **Necromantic Sacraments** – read this after Honoring Death
- **Daemonolatry Goetia** – Goetia
- **Drawing Down Belial** – Daemonic Communication & Divination
- **Sigillum Diaboli** – Divination via Daemonic sigils
- **Demonolatry Rites**
- **Abyssal Communion & Rite of Imbibement**
- **Modification & Practice Series** – *Scales of Ma'at, Hidden: Living with the Uninitiated, Modified Daemonolatry*. (You can get FREE pdf's of these books on demonolatry.org)
- **Wortcunning for Daemonolatry** – Daemonic Herbalism & Alchemy
- Any of the *Daemonolater's Guide Series* including:
 - **Sex, Money & Power**
 - **Daemonic Pacts**
 - **Daemonic Offerings**
 - **Daemonolatry Groups**
 - **Daemonic Possession**
 - **Spirit Keeping & Spirit Vessels**
 - **Daemonic Prayer & Prayer Cords**
 - **Daemonic Love Magick**
- **Book of Agares**
- **Lake of Fire: A Daemonolater's Guide to Ascension**
- **Daemonic Magick for Creatives** (forthcoming with a different title)
- **Daemonic Prosperity Magick**
- **The Preeminent Curse** (List Only)
- **Grimoire of Saturn** (List Only)

Then you have a 301 book – **Kasdeya Rite of Ba'al**, and this should only be read and used if you're an experienced magician and you're ready for a major life change.

Finally – you have your advanced books. Let's call these 401. Readers shouldn't even delve into these books unless they've been practicing a few years. These books include (and should probably be read in this order):

1. **Infernal Colopatiron** or **The Abyssal Angels** – theophany and gate opening.
2. **Nuctemeron Gates** – gate opening
3. **Keys of Ocat — Keys of Death** is a companion text to this and is used in conjunction with Keys of Ocat. – Necromancy.
4. **Atem Beleth** (List only)

Finally, you have two books that are occult-based, but stand alone and aren't Daemonolatry specific. These can be read at any time and are suitable for beginners of ANY path.

-**Curses, Hexes & Crossing** – execration magick

-**The Art of Creative Magick** – creating your own ritual

I also have a book of Daemonolatry related essays, articles, and “best-of” blog posts as well as a book of my essays found in several anthologies, some out of print-

-**Bound by Blood**

-Daemonolatry **Monograph I** (*Must be on my mailing list*)
