

**SAFETY DATA SHEET**

To GHS Standard

---

**SECTION 1: IDENTIFICATION**

---

**Product Identifier:**

**Product Name:** Sodium Sulphate Anhydrous

**Other Means of Identification:**

**Synonyms:** Disodium sulphate; Sulphuric acid, disodium salt: Sodium bisulphate

**Recommended Use of the Chemical and Restrictions on Use:**

**Recommended Use:** Various Industrial and Consumer uses as a filler, finishing agent, intermediate, processing aid, surface active agent, chemical ingredient etc. in the cleaning, textile, packaging, laundry, dishwashing, paper, electroplating, and other industries.

**Restrictions on Use:** FCC and/or FDA requirements must be met for some applications.

**Supplier's Details:**

**Manufacturer:** Prairie Mud Service  
738 6<sup>th</sup> Street  
Estevan, SK S4A 1A4  
306-634-3411

**Emergency Phone Number:** 24-Hour CANUTEC 613-996-6666  
8:00 am--4:00 pm Mon-Fri 306-634-3411

---

**SECTION 2: HAZARD IDENTIFICATION**

---

**Emergency Overview:** This product is not considered to be hazardous to health.

The product is a solid white granular powder that may be slightly irritating to the eyes and non-irritating to the skin and respiratory tract. The product is considered nontoxic so the toxicological properties have not been fully investigated. Product is also hygroscopic but non-flammable and non-explosive.

**GHS Label Elements, including Precautionary Statements:**

**WHMIS: OSHA:**

Not a controlled substance. Not hazardous, not classified.

Signal Word - none required but WARNING or CAUTION may be used as the product can be an irritant.

## Sodium Sulphate Anhydrous

Hazard Statements - none required but can be an irritant. Label Symbols - none required.

Label Precautionary Statements - none required although general first aid, PPE, personal hygiene, handling, storage and other statements can be made.

### Potential Health Effects:

**Acute:**

- Eye:** May cause slight eye irritation.
- Skin:** May cause slight skin irritation.
- Inhalation:** May cause slight respiratory passage irritation.
- Ingestion:** May cause gastrointestinal irritation and discomfort.

**Chronic:** None known.

### Other Hazards:

**Not applicable** - Product is not hazardous, is not a controlled substance.

---

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

---

### Chemical Identity:

Sodium Sulphate Anhydrous  
Detergent grade minimum 99 wt. % Na<sub>2</sub>SO<sub>4</sub>  
Other grades minimum 98 wt.% Na<sub>2</sub>SO<sub>4</sub>

### Common Name, Synonyms etc.

Sodium sulphate, Saltcake, Bisodium sulphate, Disodium monosulphate, Dibasic sodium sulphate.

### CAS Number and Other Unique Identifiers:

**CAS Number:** 7757-82-6  
**EC (EINECS) Number:** 231-820-9  
**ICSC Number:** 0952  
**RTECS#:** WE1650000  
**Chemical Formula:** Na<sub>2</sub>SO<sub>4</sub>  
**Molecular Weight:** 142.04

### Impurities and Stabilizing Additives:

Product does not contain other substances at concentrations considered to be hazardous to health.

---

## SECTION 4: FIRST AID MEASURES

---

### Necessary Measures:

**Eye Contact:** Rinse cautiously with plenty of water for several minutes. Remove contact lenses, if worn, and if easy to do so.

Seek medical attention if eye irritation persists.

**Skin Contact:** Rinse with water, then wash exposed area with soap and water. Seek medical attention if skin irritation occurs.

**Inhalation:** Not expected to require first aid measures. Move to fresh air

## Sodium Sulphate Anhydrous

if breathing affected. Seek medical attention immediately if symptoms occur.

**Ingestion:** Rinse mouth with water, and drink 1-2 glasses of water to dilute. If large amounts were swallowed(>15g) get medical advice.

### **Important Symptoms/Effects:**

**Acute:** No information available.

**Delayed:** No information available.

**Medical Attention and Treatment:** Treat symptomatically.

---

## SECTION 5: FIRE-FIGHTING MEASURES

---

**Suitable Extinguishing Media:** Any means suitable for surrounding fire.

**Unsuitable Extinguishing Media:** No information available.

**Specific Hazards Arising from the Chemical:** May produce irritating or hazardous oxides when heated to decomposition (1100 C) by surrounding fire.

**Special Protective Equipment and Precautions for Fire-Fighters:** As in any fire, wear approved self-contained pressure demand breathing apparatus and full protective gear.

---

## SECTION 6: ACCIDENTAL RELEASE MEASURES

---

**Personal Precautions, Protective Equipment, and Emergency Procedures:**  
Provide adequate ventilation and wear appropriate personal protective equipment.

**Environmental Precautions:** Do not discharge directly into water or sewer.

**Methods and Materials for Containment and Cleaning Up:** Product is a solid material so containment not normally required. Avoid dust formation. Shovel, sweep or vacuum spillage and place into covered containers for reuse and/or disposal. Product can be moistened if necessary to minimize dust formation. Neutralizing chemicals not required. Subject to applicable regulations, waste material is typically disposed of by burial in a landfill.

---

## SECTION 7: HANDLING AND STORAGE

---

**Safe Handling Precautions:** Wear appropriate protective equipment. Avoid contact with skin, eyes, or clothing. Minimize dust formation and avoid inhalation and ingestion. Follow good industrial hygiene and safety practices.

**Safe Storage Conditions and Incompatibilities:** Product is very hygroscopic. Store in a dry location and/or in a tightly closed container to minimize caking and dusting. No available data on incompatibilities.

---

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

---

## Sodium Sulphate Anhydrous

**Control Parameters:** This product does not contain any hazardous materials with occupational exposure or biological limit values established by regulatory bodies. Refer to applicable nuisance dust guidelines.

**Engineering Controls:** Ventilation to dilute dust concentrations is generally a satisfactory health hazard control for this substance. A local exhaust system can be considered if there is worker discomfort. Provide safety shower and eye wash for emergencies.

### **Individual Protection Measures:**

**Eye/Face Protection:** Appropriate safety glasses or goggles can be worn to avoid accidental eye contact or for unusually dusty conditions.

**Respiratory Protection:** Nuisance dust/mist respirator/mask may be worn in unusually dusty conditions or if irritation or other symptoms occur.

**Skin and Body Protection:** Not normally required. When appropriate, use work glove for dry product and rubber/neoprene gloves for solution.

---

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

---

**Appearance: Odour:**

**Odour Threshold: pH:**

**Melting Point: Freezing Point: Boiling Point: Boiling Range: Flash Point: Evaporation Rate:**

**Flammability:**

**Flammability Limits: Vapor Pressure: Vapor Density: Relative Density: Solubilities:**

Crystalline solid white granular powder. Odourless to slight characteristic odour. Not applicable.

5 to 9 for 1 % solution - varies with concentration. 884C

Not applicable.

Decomposition occurs above 884 C.

Not applicable.

None.

Not applicable. Not flammable. Not applicable.

No data- expected to be extremely low. Not applicable.

2.664

Water- soluble with inverse solubility curve.

**Partition Coefficient:**

**Auto-Ignition Temperature: Decomposition Temperature: Viscosity:**

Alcohol - insoluble.

log Pow - no data available. Not flammable.

Decomposes at 1100 C.

Not applicable - solid.

---

## SECTION 10: STABILITY AND REACTIVITY

---

**Reactivity: Chemical Stability:**

**Hazardous Reactions:**

**Conditions to Avoid: Incompatible Materials:**

No available data.

Stable under normal storage conditions.

Normally none, but reacts violently (explodes) when melted with magnesium or aluminum.

Moisture/water, high temperatures.

Avoid contact with oxidizing agents, strong acids, aluminium and/or magnesium.

**Hazardous Decomposition Products:** Sulphur oxides, sodium oxides in fire conditions.

---

### SECTION 11: TOXICOLOGICAL INFORMATION

---

**Exposure Routes:**

**Eye Contact: Skin Contact: Inhalation: Ingestion:**

Airborne dust or splashed solutions. Airborne dust or splashed solutions. Airborne dust.

Inadvertently or unintentionally swallowed dry product or solutions.

**Symptoms:**

**Eye Contact:** May cause slight eye irritation.

**Skin Contact:** May cause slight skin irritation.

**Inhalation:** May cause slight respiratory passage irritation.

**Ingestion:** Slowly absorbed from the alimentary tract. Because of osmotic activity, it will draw water into the lumen of the bowel and, in sufficient quantity, may cause purging and fluid loss.

**Effects:**

**Chronic Effects:** No long term effects are expected (Source: Kelada and Euinton Journal of Occupational Medicine, 12, 812, 1978).

**Skin Sensitization Potential:** Highly unlikely.

**Subacute or Subchronic Toxicity:** No available data.

**Carcinogenicity:** Not identified as a probable or confirmed human carcinogen by IARC, ACGIH, NTP, OSHA.

**Genotoxicity (Mutagenicity):** No data other than negative Ames test.

**Fertility:** Limited data of poor validity.

**Teratogenicity:** Limited data of poor validity.

**Phototoxicity or Photosensitivity:** No available data.

**Toxicokinetics:** Absorption through skin can be ignored because fully ionized in solution. Sulphates found in all body cells with biggest concentration in connective tissue, bones, and cartilage. High levels of sulphate in urine may result from dust inhalation. For oral, excretion is mainly in the urine.

**Dermal Bioavailability:** No available data.

**Other Adverse Effects:** Toxicological properties have not been fully

## Sodium Sulphate Anhydrous

investigated but, based on the weight of evidence the conclusion is that the identified data gaps need not necessarily be filled.

### Numerical Toxicity Measures:

**Acute Toxicity:** LD<sub>50</sub> not reliably established but probably far in excess of 5000 mg/kg. Human oral dose of 300 mg/kg bodyweight up to 20 gm well tolerated, as is daily dose of 25 mg/kg. No data for dermal but not expected to be of concern. Aerosol inhalation found no adverse effect at 10ug/m<sup>3</sup>. WHO/FAQ did not set an ADI for this product.

Ref. Okahara 1963 LD<sub>50</sub> (oral, mouse) non-standard  
Ref. Henkel LD<sub>50</sub> (oral, rat) 5989 mg/kg bw  
>10,000 mg/kg bw

## SECTION 12: ECOLOGICAL INFORMATION

### Ecotoxicity:

**LC<sub>50</sub> Fish :** Pimephales promelas 96h = 7960 mg/l  
Based on EPA/600/4-90/027 (1991)

**EC<sub>50</sub> Daphnia :** Daphnia magna 48h = 4580 mg/l  
Based on EPA/600/4-90/027 (1991)

**EC<sub>50</sub> Algae :** Nitzschia linearis 120h = 1900 mg/l  
Based on Cairns et al (1964)

**EC<sub>50</sub> Bacteria:** Stalked cilia NOEC ca. 8 g/l  
Bacteria and motile protozoa NOEC ca. 26 g/l  
37 days test with increasing concentration.

**LC<sub>50</sub> Sediment Organisms:** Trycorythus sp. 96h = 660 mg/l  
Semi static test in river water.

**Terrestrial Plants:** Picea banksiana root effects at 1.4 g/l  
Test with seeds in sand.

### Persistence and Degradability: Bioaccumulative Potential:

No information chronic or longer term toxicity.

BCF 0.5 - predicted using the BPI-Suite program. This is very low and does not suggest any concern.

### Mobility in the Soil: Other Adverse Effects:

Product soluble so expected to move with water in soil. No available data.

## SECTION 13: DISPOSAL INFORMATION

**Waste Disposal Methods:** Product supplied is not a hazardous waste but could become a hazardous waste after mixing or coming in contact with a hazardous waste. Subject to applicable regulations, small amounts of waste material are normally disposed along with

## Sodium Sulphate Anhydrous

ordinary waste in landfills, but large amounts may require disposal at approved facilities.

### SECTION 14: TRANSPORT INFORMATION

**UN Number:**

**UN Proper Shipping Name: Transport Hazard Classes: Packing Group: Environmental Hazards:**

**Bulk Transport:**

**Special Precautions: IATA:**

Not assigned.

Not regulated for transport. Not regulated.

Not applicable.

Not regulated.

Not regulated.

Not applicable.

Not regulated.

### SECTION 15: REGULATORY INFORMATION

**International Inventories:**

<b>Australia:</b>	AIC	Listed.
<b>Canada:</b>	DSL	Listed.
<b>Canada:</b>	NDSL	Not listed.
<b>China:</b>	IECSC	Listed.
<b>EU:</b>	EINECS	Listed.
<b>Japan:</b>	ENCS	Listed.
<b>Korea:</b>	KECI	Listed.
<b>New Zealand:</b>	NZIOC	Listed.
<b>Philippines:</b>	PICCS	Listed.
<b>Taiwan:</b>	NECI	Listed.
<b>United States:</b>	TSCA	Listed.

**US Federal Regulations:**

**SARA 311/312 Hazardous Categorization**

<b>Acute Health Hazard</b>	No.
<b>Chronic Health Hazard</b>	No.
<b>Fire Hazard</b>	No.
<b>Sudden Release of Pressure Hazard</b>	No.
<b>Reactive Hazard</b>	No.

**SARA 313 Toxic Chemicals Clean Water Act**

**State Right-to-Know Canada:**

Product not listed in Title ill.

Product not listed here or Safe Drinking Water Act. Product not listed on California Proposition 65.

Not WHMIS controlled.
