

**Financial
Services
Collaborative**

The Greater Phoenix Chamber Foundation (Foundation) Financial Services Workforce Collaborative is an employer-led forum for companies seeking financial services talent, working collectively to increase the talent pool. Arizona is a financial services hub with a growing number of positions, especially entry-level licensed professionals. As the number of jobs continues to grow, companies need alternative pathways for talent development and attraction.

Financial Services Collaborative Priorities

- Continue to increase the number of qualified applicants by embedding Securities Industry Essentials (SIE) exam content and required competencies into credit courses within the Maricopa County Community Colleges
- Launch updated courses at the community colleges and bring increased career awareness to individuals seeking their next career
- Provide participating employers with ongoing access to students within the community college district as guest speakers, through hiring events, and on-campus interviews

Join our collaborative and invest today!

What are the Benefits for your Company?

- Access to diverse candidates with on-campus interviews and hiring events
- Career awareness and promotion for financial services
- Ability to share your company culture at facilitated recruitment events
- Recognition as an investor or participating employer in collaborative
- Ongoing project support and follow-up with a Workforce Development Manager
